

ULTRA CELL™ BERRY

FULL SPECTRUM HEMP
CBD COSMETIC

EXCLUSIVE TECHNOLOGY FOR ENHANCED ABSORPTION

- **Full spectrum hemp CBD.** Every application provides phytocannabinoids, terpenes, and more.
- **Exceptional bioavailability.** UltraCell™ Berry offers full spectrum endocannabinoid system-based support made water-soluble for enhanced absorption.
- **Wellness and inner balance support.**
- **The refreshing scent of açai berry.**

THE POWER OF CBD

The Endocannabinoid System, or ECS for short, is a complex network of receptors that are found throughout your body, including your central nervous system, peripheral nervous system, and immune system. The goal of the ECS is to maintain a stable internal environment despite fluctuations in the external environment. It is believed to be the system that keeps the body in balance. Your ECS is fueled by endocannabinoids, molecules produced by your body that interact with these receptors.

When the production of endocannabinoids becomes slowed or imbalanced, phytocannabinoids, which are cannabinoids produced in the hemp plant, can supplement what the body may be lacking!

CBD, or cannabidiol, is one of over a hundred naturally occurring phytocannabinoids found in hemp. The full spectrum hemp CBD oil found in UltraCell™ Berry helps restore balance to your ECS and is non-intoxicating.

THE POWER OF FULL SPECTRUM

Since ancient times, the hemp plant has been revered for an abundance of health benefits. Hemp is naturally rich in phytocannabinoids. This amazing botanical includes hundreds of other biologically active compounds, each one with potential positive skin and body benefits. When the plant is applied in its full and natural arrangement, the potential for health benefit is thought to increase. This phenomenon is known as the “entourage effect” and it occurs in full spectrum hemp oil.

EXCLUSIVE TECHNOLOGY

As we all know, oil and water don't mix. It's a widely known fact that oil-based products are poorly absorbed by the body. Our proprietary UltraCell™ technology has been developed by our team of experts to make the product water-soluble. UltraCell™ technology has been demonstrated in a clinical study to enhance the bioavailability of our products.

Full spectrum, hemp-based (*Cannabis sativa L.*) cannabinoids made water-soluble for enhanced absorption. THC free.

Available in 7, 15, and 30 mL.

Directions: Use 1 mL daily topically on skin or in your favorite care cream.

Precautions: Not suitable for pregnant or nursing women. Intended for adult use only. Do not exceed recommended daily use. In case of skin irritation or eye contact rinse with water.

INGREDIENTS (INCI): Purified Water (Aqua), Glycerin, Natural Flavors (Ethyl Butyrate, Maltol, Starch), Euterpe Oleracea, Caprylic/Capric Triglyceride, Stevia Rebaudiana Leaf Extract, Phospholipids, Cannabis Sativa Leaf Extract, Xanthomonas Campestris, Gum Arabic, Potassium Sorbate.

This product contains 250 mg of hemp extract with 125 mg of cannabidiol (CBD), yielding a potential 50% CBD profile. This product is THC free.
